

Class Rule Changes

International Hobie 14 Class Association

Effective date: 2023-04-01

Status: Approved

Amendment One

HOBIE 14 CLASSIC:

Old:

- 3.5 A mast rotation control kit may be mounted below the boom. The mast rotation control shall be Hobie Cat Co supplied. The mast rotation control purchase shall not be greater than 2:1 and the mast rotation kit shall not have controls to permit adjustments while on trapeze. It is recommended that mast waterproof integrity is retained.

Amend to read:

- 3.5 A mast rotation control kit as supplied by HOBIE CAT CO may be mounted. The mast rotation control purchase shall not be greater than 2:1 and the mast rotation kit shall not have controls to permit adjustments while on trapeze. The mast rotation control kit must be mounted as specified by HOBIE CAT CO. Specifications and guidelines are available through the IHCA.
